

# Choking Prevention Tool

A choking event can be scary and ultimately tragic. It is the fourth leading cause of unintentional injury deaths and while choking can happen to anyone, it tends to happen to those who are the most vulnerable among us, children and the elderly. Intervention methods, such as the Heimlich maneuver can help save lives; however, what can you do if all choking protocols have been followed without success?

Philadelphia Insurance Companies (PHLY) is proud to partner with LifeVac to give your organization another tool to help save the lives of those you serve.

Use code **PHLYRMS2025** when checking out after shopping on [LifeVac.net](https://lifevac.net) to receive an exclusive 25% PHLY policyholder discount on any order of the LifeVac devices, kits, or bundles.
